Competitive examinations and career counselling offered during 2022-23

General English ✓

Competencies are combinations of attitudes, skills and knowledge that students develop and apply for successful learning, living and working. Core competencies help managers make better decisions, using their strengths and expertise to analyse situations and make informed choices. Core Competency sessions were conducted as a regular classroom session to make students prepared for Competitive exams, placement drives and for their social life. A series of classroom sessions were designed and executed for the 3rd semester students. English has occupied its place in competitive examinations in order to understand the reading, writing and understanding skills of candidates.

Asst. Prof. A Mishra has been tasked with conducting this subject. The sessions include topics which are part of the competitive exams. The sessions are dedicated for rules for tenses, rules for prepositions, list of prepositions, rules and list of conjunctions, active and passive voice rules, list of one-word substitutions, list of homophones/homonyms, list of synonyms and antonyms, idioms and phrases, spotting the error, reading comprehension and sentence correction questions etc. The students get homework after each session for practice. Students benefited from these sessions because they provided practice in using strategies and rules to develop their English. In total, 181 second-semester students (admission batch 2021-23) participated in the workshops. Multiple-choice questions were used for the evaluation.

Quantitative Aptitude ✓

For placement and other competitive exams, quantitative aptitude and reasoning are highly crucial. To prepare students for competitive exams and placement drives, Quantitative Aptitude courses were offered regularly. A set of classroom sessions for 3rd semester students was put together. Each section's students must acquire formulae and strategies to solve quantitative/reasoning issues efficiently and effectively. In class, students practice quantitative aptitude and verbal/nonverbal reasoning questions. These activities take 12 hours, 1 hour 15 minutes every session.

Quantitative Aptitude & Reasoning session for 3rd Sem (2021-23 batch)

Dr. S. Biswal has been tasked with conducting this subject. At the start of each session, they would go over some basic problem-solving techniques and formulas for a given topic, and then give the students some practice problems to work on throughout the session. In addition, students get homework in the form of practice problems. Students benefited from these sessions because they provided practice in using strategies and formulas to solve numerical issues. It also helps students develop their capacity for abstract thought and helps them become more adept at solving numerical difficulties. In total, 181 third semester students (batch 2021-23) participated in the workshops. Multiple-choice questions were used for the evaluation.
