157 responses

21. The Institute provides ample opportunities to learn from industry experts through seminar, symposium, corporate mentorship and etc.

157 responses

22. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

157 responses

Excellent

Very good

Good

Good

No

1. Observation: Limited Interactive Learning Methods.
2. Observation: Gap Between Academic Curriculum and Industry Requirements.
3. Observation: Limited Structured Feedback Mechanism.

I am a day scholar and overall the teaching is good. However, the college winger leaves only at one fixed time, which creates difficulty for some day scholars. Because of this, we cannot participate in extra activities like badminton or have discussions with teachers after classes. It would be better if a fixed final departure time (for example, 5:30 pm) is maintained so that students can manage activities and still reach home safely.

Best

Yes

Nothing

College faculty my proctor mam insulting everytime .this is going wrong with me . And special tnx to jinasis sir for helping and supporting me every time .

- Focuses on 1. Practical Application (case study, simulation, real world example)
2. Interactive and collaborative method (discussion, group project)
3. Technology integration (visual, platform, blended learning)
4. Robust feedback loops (students survey, peer review, timely feedback)

Overall is good

...

We learn from our teachers very well.They explain very clear which gives us to understand very clearly.

The good teaching or good suggestions

Active observation with actionable suggestions

Our institute teaching style very excellent

Use of Interactive Teaching Methods Teachers should include interactive methods like group discussions, presentations, case studies, and practical activities instead of only traditional lectures. This helps students understand concepts better and increases their participation in class. Integration of Technology in Learning Institutions should use digital tools such as smart boards, online resources, and learning management systems. Technology makes learning more engaging and helps students access study materials easily. Regular Feedback and Student Support Teachers should regularly take feedback from students about teaching methods and course content. Providing mentoring, doubt-clearing sessions, and academic guidance can improve students' understanding and performance.

Enhance the Use of Technology and Digital Tools, industry visit, guest sessions

This institute is a platform for study and to experience management in real life

I suggest that notes and study materials should be shared immediately after each class.

I suggest that teachers highlight important questions and exam-oriented topics.

I suggest providing short revision or recap sessions before exams.

Very good, excellent and communication skills English speaking

Per day 7 class it feels like school we need per day 3 to 4 classes

1. More Practical Sessions
2. Interactive Teaching
3. Timely Feedback

The Quality of teaching is very good

Very nice teachers. Thank you.

Excellent teaching

Best experience

Good learning experience with best teacher with friendly behaviour

Integrate more ICT tools: Use more interactive digital platforms, animations, and virtual labs to make complex concepts easier to visualize and understand.

Increase practical sessions: Shift the focus from purely theoretical lectures to hands-on workshops and industry-relevant projects.

Recording of lectures: Provide access to recorded versions of live sessions so students can revisit difficult topics at their own pace.

I love ashta school of management

Prepare the student in dynamic managerial role in a comparative business role

Increase practical learning and real-life examples.

Encourage interactive and participative teaching methods.

Use digital tools and modern teaching aids.

good

The teaching experience was good

1:- More industry expert seminars and guest lectures should be organized to improve practical knowledge.

2:- The institute should provide more internship and live project opportunities for students.

3:- More interactive classes using modern ICT tools and case studies should be encouraged

A

Everything is fine

Use more interactive and practical teaching methods.

Strengthen regular feedback and mentoring for students.

Increase use of digital tools and smart classroom technology.

Please avoid the online class during holidays

Communication classes

Support students personally so that they can share their problems .

"The teacher is very supportive and explains topics clearly. The classes are engaging and helpful for better understanding."

Increase practical and industry-oriented learning.

Regular feedback and mentoring sessions.

More workshops and skill development programs.

Suggestions:

1- Teachers should reach out all students, if possible, to know their Strength & Weakness and

guide them accordingly.

2- Students should be given good career directions by their respective & Concerned domain's Faculty members/ Proctors.

3- Students should be motivated with great enthusiasm & good faith, to made them future ready and competitive in changing market conditions.

The use of smart classrooms, digital resources, online study materials, and recorded lectures can help students learn more effectively and revise topics anytime.

Very excellent institution

1. Incorporate More Practical Learning Activities
2. Increase Use of Modern Teaching Tools & Technology
3. Strengthen Mentorship & Feedback System

Give Provide better placement opportunities by strengthening industry tie-ups, training programs, and campus recruitment drives.

Increase interactive teaching methods: Incorporating more discussions, case studies, group activities, and real-life examples can make classes more engaging and improve student understanding.

Use of technology and digital tools: Greater use of smart classrooms, online resources, recorded lectures, and learning management systems can support diverse learning styles and improve access to study materials.

Regular feedback and mentoring: Conducting periodic feedback sessions and providing academic mentoring can help identify learning gaps early and support students' academic and personal development.

1. Teaching methods are effective and teachers are supportive and knowledgeable.
2. More interactive learning methods and practical exposure can improve student understanding.

Nice

It's all good

Best teachers in our college

Best institute for management, Good conversation faculty with students and every time entertainment types events good studies

Our institute provide excellent teaching skills

Faculty members are supportive, knowledgeable, and always ready to guide students.

Regular feedback and mentoring

..

Encouraged active and collaboration learning.  
Integrate technology and diverse media.

Overall experience is good.

Reduce events, reduce unnecessary activities

Enhanced Use of Technology  
Incorporating advanced educational  
More Hands-On Learning

na

Institute should focus on the communication skills of the students.  
And also on placement opportunities.

It is very good

The teaching method is absolutely excellent

Use better graphics and visual media to engage students well. ...

Our institute teaching process is very nice

Very good teachers and teaching

Biased selection should not be there.  
Teaching experience is good.  
Canteen food quality needs to be improved especially in dinner.

willing progress

Involve Fintech classes

Introduce the Fintech and AI subjects

1. Integrate tools like interactive simulations, virtual labs, and AI-driven platforms to make complex concepts more engaging and accessible. This can enhance student participation and understanding.

2. Encourage project-based learning and industry collaborations to help students apply theoretical concepts to real-world problems, boosting relevance and skill development.

3. Implement regular, structured feedback sessions between students and faculty to identify areas for improvement and tailor teaching approaches to diverse learning styles.

1. Encourage Active Learning

2. Personalize Learning

3. Leverage Technology

...

Overall good

Learning process is very well.

Use more interactive and activity-based teaching methods.

Improve digital tools and smart classroom facilities.

Provide regular feedback and academic support to students.

Weekly/class test MCQ based

Use of Interactive Teaching Methods, Integration of Technology in Learning, Regular Feedback and Student Support.

From my side:-

1. Increase more practical skill development classes like Group Debate ( example)

2. In 2nd sem expect some competition between the students EX :- presentation, sports, best business quiz/ plan

3. One observation is In all events Organisation, Teaching methods mainly in study etc. all are very good compared to any other colleges where my other friends are IN .

No Need To Improve Everything Was Fine & Excellent

Every teaching is good

Personalized learning approach:

Good experience

Everything is fine.

Faculty should use case studies, group discussions, presentations, and real-life examples to make classes more interactive and engaging.

The institution should conduct regular practical sessions on Excel (data analysis, formulas, charts) and PowerPoint (professional presentations) to improve job-ready skills.

Observation: Many students face difficulty in speaking and understanding English confidently.  
 Suggestion: The institution should conduct regular spoken English classes, group discussions, and communication labs to improve fluency.

1. Conduct regular student feedback sessions.
2. Encourage practical, project-based learning.
3. Provide mentoring and academic counselling.

Guest lectures from industry experts ,placement Training, introduce industry-oriented curriculum and case studies

Enhance Interactive and Student-Centered Learning.  
 Strengthen Feedback and Assessment Practices.  
 Improve Teacher Professional Development and Resource Support.

focus on active, practical learning (field trips, projects), and integrating technology for engagement

1. Teachers should use more practical examples in class.
2. More seminars and industry visits should be arranged.
3. Students should get regular guidance and feedback from teacher

Increase practical and experiential learning:  
 Incorporate more hands-on activities such as case studies, projects, internships, and industry interactions to help students apply theoretical knowledge in real-life situations

- # Industry Exposure and Practical Learning
- # Inter student communication activities should be done more with supervision
- # Mentoring - Skill Development, and Career Support
- # Separate session should be done for interested students on communication to boost their confidence, enhance of the skill to remove audience fear

Proctor class should be before launch hour, because as day scholars have to move there home

Our teachers teach well

1. Use of interactive teaching methods
2. Regular feedback and mentoring system
3. More practical and skill-based learning
